Healing Clinics

A healing is an energy clearing, like a psychic shower! During a healing, energy you don't need to be carrying is cleared out of your space, including energies that block growth and flow. Whether feeling ill or well, anyone can receive a healing, anytime. These clearings are energizing and clear the body - spirit communication, bringing you back in touch with yourself. Also, they are a great way to visit our center and get a taste of what we're all about. There are several opportunities each week to receive a healing at ICI.

The Church of Infinite Spirit

In addition to our many programs and services, we also hold a spiritual service each Sunday through our non-profit church, The Church of Infinite Spirit. Our church is a place of Spiritual Freedom and Celebration; a Sanctuary in tune with the spiritual needs of souls on earth today.

Join us each week as we celebrate spiritual awareness and the journey of life with fun, acceptance and understanding. Services are held every Sunday at 11:00am at the Inner Connection Institute.

Stay for our fee aura healing clinic following the service!

Upgrading Your Life by Rev. Heidi Peterson

Taking steps in the direction of our dreams can begin a process that resembles embarking on a home remodeling project. First, we have the desire to improve or accomplish something. Our dream generates enthusiasm, playfulness, creativity and action. Our vision compels us to set out on the great adventure of making that dream a physical reality, with only our ideals to inspire our course.

Once we set the process of change into motion by acting on our intention to express or manifest this new aspect of ourselves, we stir up dust. Our personal relationships begin to reflect the changes to which we are opening. We let go of the old, and allow room for our new creation. The journey is akin to tearing down the drywall in order to replace the plumbing. As we venture through our personal upgrade, we may run into snags

that leave us feeling over-extended, over-time and over-budget. We can feel discouraged when we find ourselves in the midst of a construction site, having destroyed that which does not support us, but not yet seeing the improvements that inspired us into motion in the first place.

This is the moment when faith propels our success. This is the time to look at that picture that we initially envisioned. It is not the time to stop renovating. We must recall the specifics of our dream, as well as why it matters to us to express our heart's desires. Renewed commitment at this juncture carries us to the fulfillment of our intention. Once our dream has been attained, we set a new standard that moves us beyond our previous situation.

In the end, choosing to manifest our dreams improves our quality of life as it inspires us to live fully. And it prepares us for our next remodel... ☺
